

Polyversal: Sci-Fi Miniatures System
CEW00009 (base set without miniatures)

MSRP: \$75.00

Polyversal is a universal 6mm-15mm sci-fi miniatures system that works with miniatures you may already have. Quickly customize your units and generate playable stat tiles in minutes using the included design application, Arsenal. The setting is a gritty future of conflict that promises to capture your imagination while providing endless hours of gaming entertainment. This base set includes everything you need to get started with gameplay- simply add your own miniatures from any line.

Features:

- 172 page full color rulebook
- 2 double-sided Quick Reference Cards
- 15 color-coded polyhedral dice
- 2 sets of Orders Tokens
- 2 sets of Tracking Tokens
- Endless customization with Arsenal
