

Title: Polyversal Sci-Fi Miniatures System

- Sci-Fi miniatures-agnostic tabletop game with included design utility.
- Nominated for **Best Miniatures Game** (Origins Awards, 2022).
- Works with all 6-15mm Sci-Fi or Modern miniatures from all ranges.
- Includes Arsenal, a free online tool that lets players make customized stats.
Try it! <https://arsenal.polyversal-game.com>.

- Polyversal uses Combatant Tiles to reflect combat qualities of mechs, tanks, vehicles, aircraft, infantry, cavalry and more, providing a quick reference for their weaponry, attack ability, evasion, effectiveness, damage effects, and more. Polyversal features a robust command and control system and fast mass combat.

Components:

- Printed Rulebook (8.5x11, full color, 172 pages)
